## KEYNOTE SPEAKERS

### SASCHA WELLS-MUNRO

Deputy Chief Midwifery Officer for  
England Maternity Safety and Quality  
Improvement

Sasha believes that Midwifery must remain a distinct profession to ensure that women and families continue to receive the high quality, safe maternity care that midwives and maternity support workers provide alongside their other professional colleagues as part of a multi-professional team.

### PROFESSOR DONALD PEEBLES

Professor of Maternal Fetal Medicine at  
University College London

Professor Peebles has worked to improve perinatal outcomes, reduce maternal mortality rates, as well as to improve women's experience of maternity services. He leads an initiative to implement maternal medicine networks, improve the culture of maternity services and provides obstetric support to the Maternity Safety Support Programme.

## OTHER FEATURED SPEAKERS
