

# Spark\* Design

## New design workshops available to assist you in your innovation journey!

- Learn about a Human Centred Approach to Design Thinking
- Develop a design thinking mindset to problems in your workplace
- Learn how to give the perfect pitch

### Design Thinking Inspiration

with Trevor Vaugh

Discover how Design Thinking can foster new approaches to complex healthcare problems.

This 1.5 hour stand alone workshop (online) to inspire frontline healthcare staff of all levels to learn more about design thinking - a human-centred approach to problem-solving.

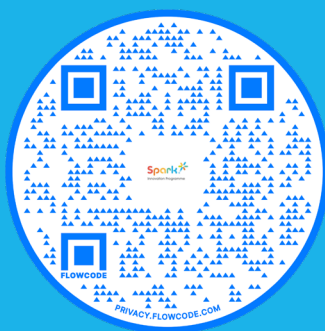

### Design Thinking Part 1

with Martin Ryan

Understanding and defining the problem through user centered research.

This 3.5 hour (online) morning session will introduce you to Design Thinking, a user-centred methodology of problem solving and innovation.

### Design Thinking Part 2

with Martin Ryan

Learn how to develop and test your solution and make an effective pitch.

This 3 hour afternoon session will guide you through testing your solutions and perfecting the 'elevator pitch' for any future engagement with stakeholders and potential sponsors.

Part 1 must be completed prior to part 2.
