

Spark*seed

Calling Frontline Innovators!

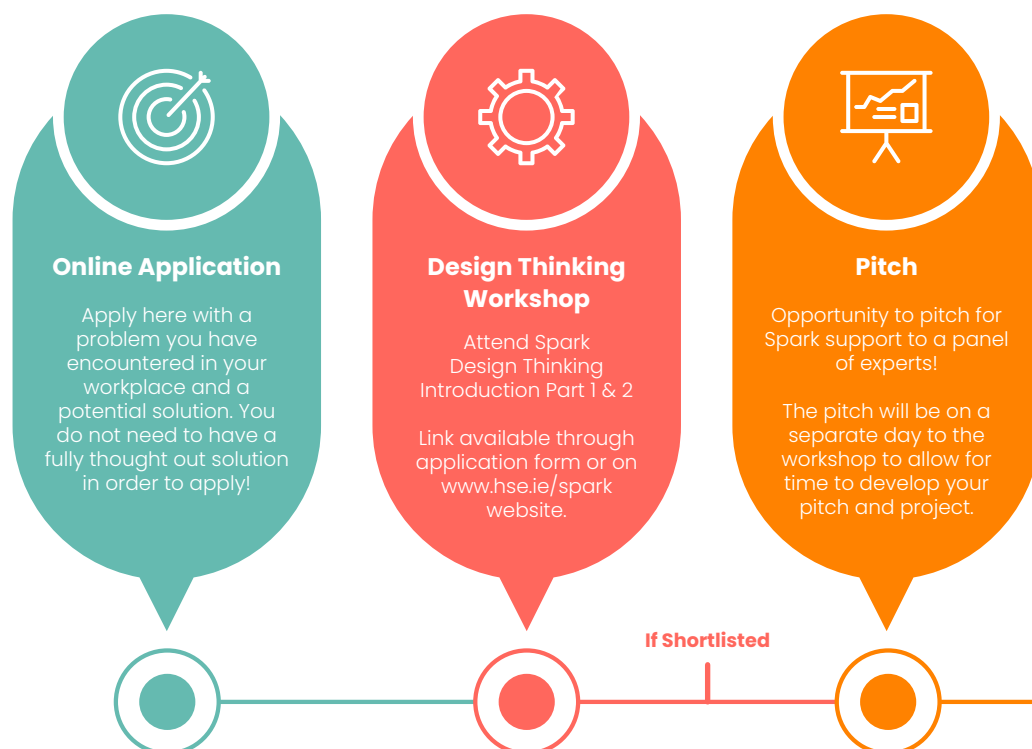

Have you noticed a problem in your clinical area?

Do you have a solution or want to learn more about healthcare design principles to try and address the solution?

Then Spark Seed wants to hear from you!

Spark Seed provides training, micro-funding and support to healthcare workers enabling you to develop your ideas and solutions.

Three Step Process

What's in it for you?

All Applicants Gain:

- Assistance with problem definition and solution identification
- Skills related to design-thinking and the pitching of ideas
- A network of like-minded innovators
- Personalised feedback on your ideas

Shortlisted applicants Gain:

- Opportunity to pitch for support including mentorship, networking and funding up to €3000
- Further opportunities to develop the project within Spark
- Promotion of the project, the applicant and organisation

When

Spark seed is now open all year round for applications!!!

(3-4 'close call' dates yearly)

Now with the new open access Spark Design workshops you can choose to attend the workshops before or after you apply to Seed. In order to pitch you must complete Design Thinking Introduction Workshops 1 & 2.
